Acquisition of further interest in Kashkasu II Uranium Project

Raisama Limited ("Raisama") (ASX:RAI) is pleased to announce that it has completed the acquisition of a further 22.5% interest in the Kyrgyz Republic Kashkasu II uranium project from Orca Energy Limited ("Orca"). Raisama now holds 97.5% of this uranium project. This acquisition has removed any future joint venture funding issues that may have arisen given Orca no longer considered its interest in this project as a core asset.

As part consideration for the purchase of this interest the Company has today issued 870,000 fully paid shares to Orca.

An Appendix 3B application for quotation of these shares is attached.

Raisama has completed its 2011 field season exploration activities at the Kashkasu II uranium project, including its Phase 4 drill program. This program doubled the known extent of mineralisation down-dip, with economic uranium mineralisation at depths of up to 394metres.

Moving to a 97.5% position will allow Raisama to plan the future of the project with a greater degree of certainty.
